

Xtra

DESIGN COLLECTION

A close-up, macro photograph of a textured fabric, likely a carpet or rug. The fabric has a dense, looped pile. The primary color is a dark charcoal grey. Interspersed throughout the texture are small, irregular patches of a vibrant lime green and a pale sky blue. The lighting is soft and even, highlighting the tactile quality of the fibers.

➤ Halbmond presents:

Halbmond stands for highly individual interior design. For many years, we have designed and produced carpets meeting our customers' personal wishes - using selected materials, state-of-the-art printing techniques and considerable professional know-how. Xtra is a new design collection giving your visions a completely new foundation.

Even very large contract and work areas can be individually designed, thanks to immense variety of grades and designs. Be it for offices, medical surgeries, retail outlets, trade fair and exhibition halls or event locations – each carpet can be precisely adapted to the aesthetic and functional requirements of the premises.

Overall design concepts can be realized quickly and easily with Xtra. Let yourself be inspired.

Xtra Design Collection

By Halbmond

Made in Germany

➤ Full service for your Xtra wishes

Personal advice
Individual designs
Sample service

The design collages in this brochure provide a first impression of the many possibilities that can be realized with Xtra. On request, we will immediately send you a pdf file with detailed design information to help you picture selected patterns more effectively in your own selected area.

You will then receive your chosen design as a carpet sample from our laboratory. The sample measures 80 x 80 cm and will show colour, design and quality – albeit without backing. It goes without saying that design and colour can always be individually modified. Contact our consultants in this context.

The delivery period is approx. four weeks from placement of the order, with a minimum production quantity of 100 m².

We look forward to hearing your wishes.

> Xtra for the environment and health

Suitable for allergy-sufferers

Easy-care

Durable

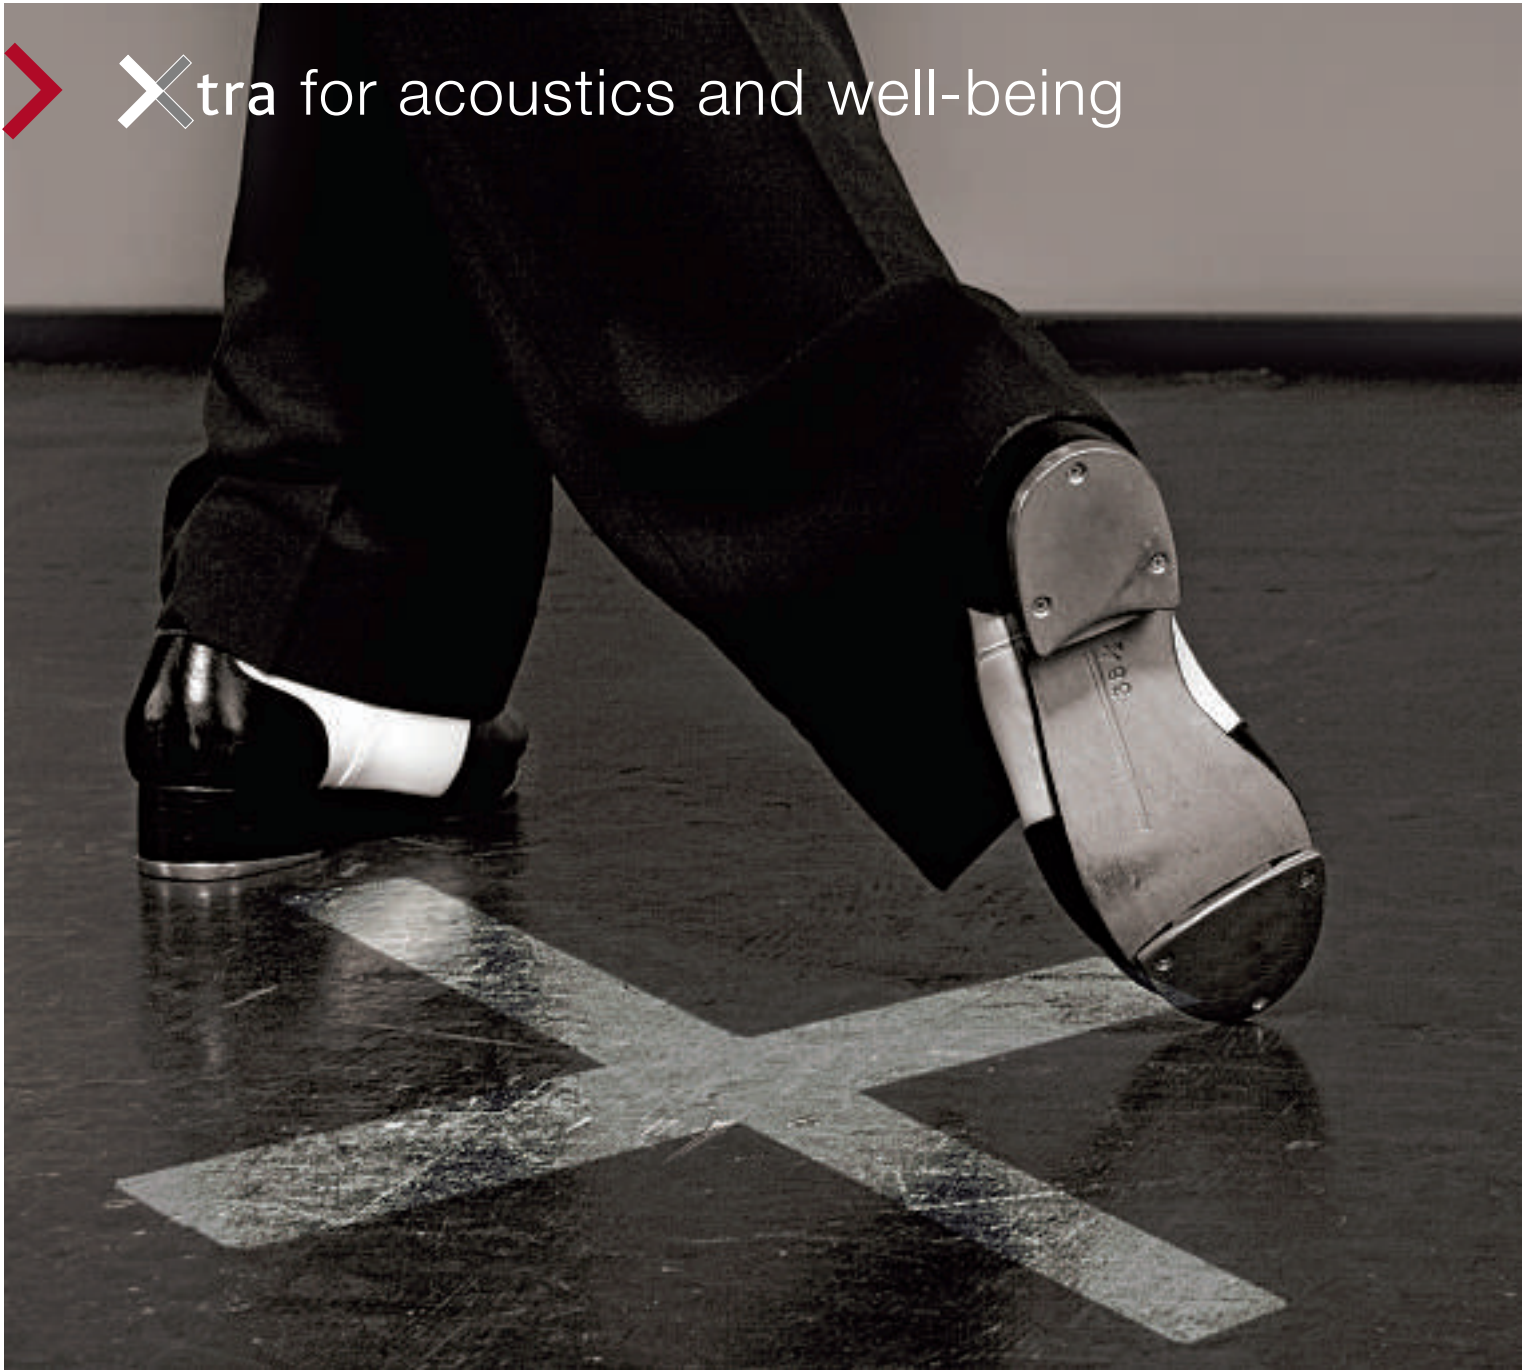

Go directly to the technical data – with the smartphone QR-code

Reconciling economic and ecological responsibility has always been part of the corporate philosophy of Halbmönd. For us, using natural resources as efficiently as possible in production is just as important as sustainability. Xtra acoustic backings, for example, are made entirely from recycled felt materials.

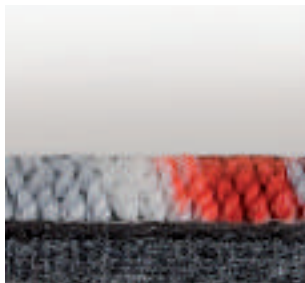

What's more, all carpets are naturally free from pollutants, suitable for allergy-sufferers and particularly durable. So that this continues to apply in day-to-day life too, please note that our cleaning and maintenance instructions can be downloaded from the Internet.

> Xtra for acoustics and well-being

There are many different noises.
But only one silence.

Kurt Tucholsky

Acoustic backing reduces
foot-fall sound by up to 31 dB

Go directly to the technical data –
with the smartphone QR-code

Pleasant acoustics

Reduces foot-fall sound

Good for joints
and backs

Ambient noise can be minimized with Xtra carpets. Depending on the contract concerned, a coating with integrated acoustic backing, for example, can reduce reverberation times and increase speech intelligibility by up to 80%. The sound of foot-falls can additionally be reduced by up to 31 dB.

Xtra also has a thoroughly positive effect on the spine and joints. The acoustic backing, for example, additionally cushions the impacts and compressive forces acting on the body with every movement. This special backing with heavy felt is particularly suitable for people who spend a great deal of time walking or standing while at work. It makes Xtra the ideal carpet for banks, open-plan offices, shops and restaurants, as well as others. Let us know your requirements so that we can ensure the correct backing for you.

8 GRADES

Almost every working world can be effectively upgraded – visually and functionally – with a carpet from the Xtra Design Collection. You can choose between Cut or Loop. Both surface textures are made from high-grade polyamide materials which are extremely robust. Cut pile grades come in five different versions from velvet cut pile to twist pile. The three Loop versions range from Berber-style loop to luster-effect loop pile. Which of these eight grades is best for you depends purely and simply on the style and function of your particular property – areas of use.

24 COLOURS

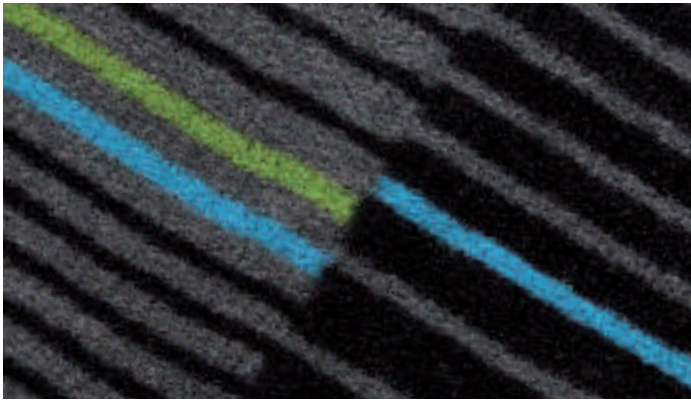

The attractive Xtra designs are produced using high-tech printing techniques which are perfectly adapted to the surface of the carpet concerned. The combination of 24 colours and 53 designs ensures that your personal freedom of design is almost unlimited. On request, we will also produce to your own design ideas. On the basis of your pattern and colour specifications, we can develop your personal design. A minimum production quantity of 100 m² applies here too.

6 BACKINGS

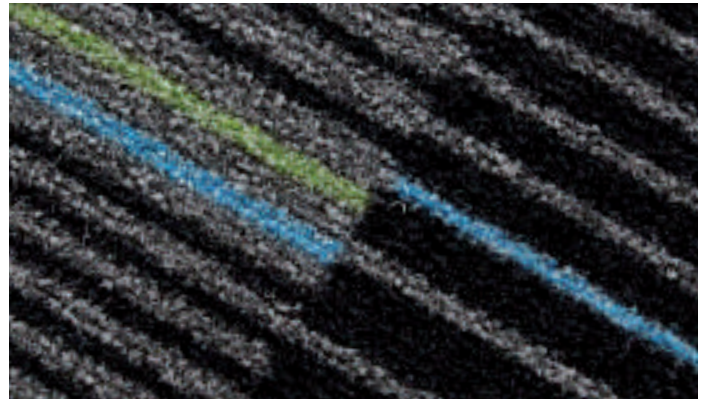

Backings meeting all the demands of modern working worlds make the Xtra Design Collection even more versatile. Acoustic backings produce a particularly soundproofing effect and ensure maximum ergonomic comfort when walked on. Easy-Lift backings are self-laying and are of exactly the same thickness as a textile backing. **Advantage: carpet modules and tiles with Easylift backing can easily be combined with wall-to-wall carpet.**

DELIVERY FORMS

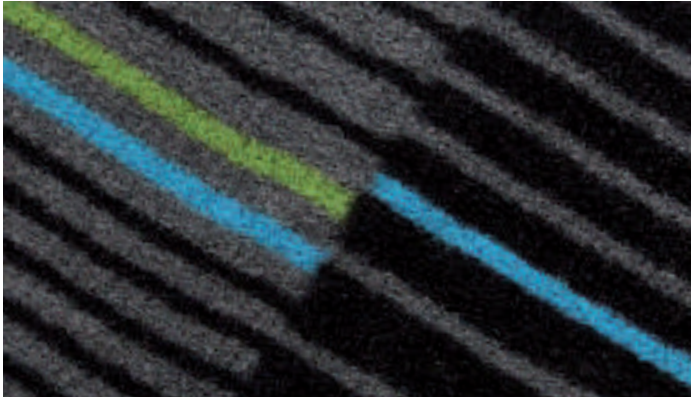

It goes without saying each carpet is available in the full range of possible production and delivery forms: from classic wall-to-wall through to tiles and module systems to loose-laying rugs adapted to the area in question. Simply send us your building drawings and we will be happy to draw up a possible solution for your specific property.

A close-up, macro photograph of a textured surface, likely a carpet or fabric. The texture is composed of many small, raised, tufted fibers. The color palette is muted, featuring shades of grey, brown, and black, with occasional bright green and light blue fibers interspersed throughout. The lighting is soft and even, highlighting the intricate details of the material's weave.
